Petition for Legislative Support of
"The Family and Business Health Care Security Act"

The Family and Business Health Care Security Act (House Bill 1660) proposes universal single payer health care coverage for all Pennsylvanians. If enacted, this plan would ensure guaranteed access to fair and effective health care regardless of prior conditions or income status. HB1660 and its Senate equivalent, SB400, address Pennsylvania's skyrocketing health care costs and would reduce the waste and inefficiency inherent in our current system. With over one million uninsured Pennsylvanians and still more with inadequate coverage, the time for comprehensive health care reform is now.

The undersigned urge the full legislative body of the Commonwealth of Pennsylvania to support and vote for HB1660, "The Family and Business Health Care Security Act" and its sister bill in the Senate, SB400.
